

# Developer Satisfaction Survey

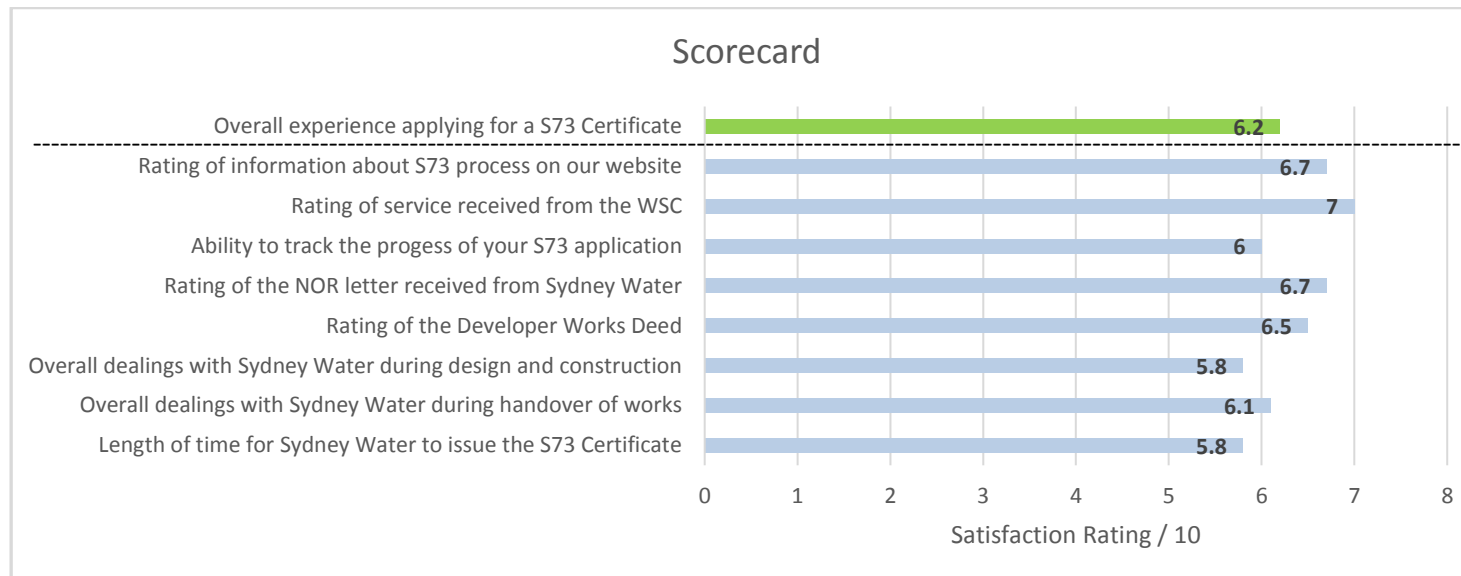

Our Developer Satisfaction Survey helps us find out how we can best improve our Section 73 process.

## Our commitment to you

We're committed to improving developer satisfaction. Our Developer Satisfaction Survey lets us know how we're performing and helps us find out how we can best improve our Section 73 process. Based on your feedback, one of the ways we've improved the process is through the introduction of complying applications. This has reduced our response time for low risk developments.

## Our results

We've asked developers to rate their experience through different parts of the Section 73 process. You can see our results below.

You may be invited to complete our Developer Satisfaction Survey when your Section 73 Certificate is issued. We value your feedback and appreciate your effort in helping us to improve our Section 73 process.
